

Day 2 Challenge – Rules

The hospital robot has moved to a new hospital and has been given new duties.

Task 1: Move the patients to their correct rooms. Green patient to green room, red to red room, blue to blue room and yellow to yellow room. Patient must be upright and completely inside the person drop off area (area 4) for points to be awarded.

Task 2: Place the 2 white pillow cubes on any bed in any room, 1 pillow per room will count.

Task 3: Place 3 balls into the red, yellow and black net areas (laundry container area), 1 ball per net.

Task 4: Place the water bottles on the red and green table. 1 Bottle per area will score points.

Task 5: Take the green marking blocks to the start/finish area.

Task 6: Robot must finish completely inside the start/finish area. Robot parts may extend out of the area but parts touching the mat must be completely inside the start/finish area.
